

HOMEBOUND & ATTENDANCE SUPPORT

Homebound and attendance support with Fullmind

Time away from school can become lost learning time. Fullmind teachers keep students connected to their coursework during approved absences, attendance challenges and changing circumstances.

Homebound instruction

Live instruction when medical or other district-approved circumstances prevent school attendance.

Attendance support

Help students return, reconnect and stay engaged, paired with targeted learning support.

Students experiencing homelessness

A steady connection to learning when housing changes interrupt school routines.

HOW IT WORKS

From plan to progress

1

Coordinate the plan

The district shares each student's needs, coursework and schedule.

2

Teach live

Instruction aligned with the student's approved learning plan.

3

Share progress

Participation and progress updates for the school team.

4

Adjust

Updates guide support and return-to-school planning.

WHAT YOU'LL DO

- Adapt teaching to each student's coursework, needs and approved plan
- Pair attendance support with targeted learning
- Plan around available technology and scheduling
- Keep school teams informed about attendance and progress
- Coordinate with school teams, and families when applicable, on barriers
- Help students keep working toward coursework and graduation goals

What we look for: A valid state teaching certification for your subject and grade, at least 3 years of experience as a professional educator, a short virtual teaching demonstration and a background check. **Commitments:** secure, recorded sessions, all communication inside a secure platform, and a clear protocol if a student is in crisis.
