

FOR TEACHERS

How Fullmind works with teachers

Fullmind partners with schools and districts across the United States to bring certified teachers into classrooms, live. Here is how working with Fullmind works, from your application to your first class and beyond.

YOUR PATH

From applying to teaching

1

Apply

Share your certification, experience and the subjects and grades you teach.

2

Show your teaching

A short virtual teaching demonstration and a background check.

3

Choose assignments

Pick opportunities that match your certification as schools and districts post them.

4

Start teaching

Resources to understand the district's expectations, then live classes with support behind you.

WAYS TO TEACH

Find the work that fits you

K–12 classes

Whole classes, small groups and one-on-one instruction across subjects and grades, for all learners.

Career & technical education

Live instruction for career pathways, with a partner in the room.

Special education & related services

Special educators, case managers and licensed providers.

Homebound & attendance support

Keep students learning when they can't be in class.

Tutoring & intervention

High dosage tutoring, test prep and homework help.

Credit recovery & alternatives

Credit recovery and virtual suspension rooms.

Prioritize setting expectations and making connections with students even more than you would in-person.

Carolyn Reynolds · ELA Teacher, Excellence in Teaching award recipient

WHAT YOU CAN COUNT ON

Our commitment to our teachers

**Flexibility**

Teach from home, choose your assignments, and find full-day or part-time work that fits your life.

**Ownership in how you teach**

Whole classes, small groups or one-on-one: try different formats for variety.

**Real support**

Resources to understand each district's expectations, instructional support, and a support team for technology and scheduling.

**A community**

Connect with fellow Fullmind educators to share ideas and resources, with ongoing professional development.

WHAT WE EXPECT, TOGETHER

- Standards-aligned lessons with active participation and checks for understanding
- Timely, professional communication with schools, students and families, when applicable
- A professional, distraction-free setup, with camera and microphone on
- Professional boundaries and respect for student privacy

WHAT WE LOOK FOR

- A valid state certification or license for what you teach
- A short virtual teaching demonstration
- Authorization to work in the United States
- Virtual teaching experience is a plus
- At least 3 years of experience as a professional educator
- A background check
- A laptop or desktop computer, webcam, headset and reliable internet access

WHO THRIVES AT FULLMIND

The qualities we look for

Data-driven and outcomes-oriented

You use data to plan lessons, monitor progress and keep the focus on student outcomes.

A flexible self-starter

You adapt to new schedules and districts, and take initiative working independently.

A relationship builder

You connect with students, families and school teams, even through a screen.
